UCSC Course Finder - Sprint 1 Plan

Ian Zenter (PO)
Justin Ewing
Umit Ceylan
Joe Rozo

Release 1.27.16-0.1-1.25.16

Goal: The goal of this sprint was to put together the skeleton of our service and further define, conceptually, what we wanted our service to have. This included getting a local server set up, having a basic html website with static links, and having a small dataset for internal verification.

Task Listing:
Sprint 1: Set up environment
- As a developer I want to set up a server environment (1)
  task 1: intialize default web2py server (5min)
  task 2: set up git repo (20min)
  tas 3: sync with github account (5min)
- As a developer, I want to quickly deploy and update a database (5)
  task 1: research options for course datasets (1-2 hours)
  task2 : research DAL (1-2 hour)
- As a user, I want basic search functionality (5)
  task 1: Set up simple Forms (1-2 hours)
- As a user, I want a touch friendly UI (5)

Team Roles:
    Ian Zentner -
    Umit Ceylan - back end
    Joe Rozo - front end UI
    Justin Ewing - scraper

Initial Task Assignment:
    Ian Zentner -
    Umit Ceylan - Setting up db, intial query sets
    Joe Rozo -   getting basic search page & forms
    Justin Ewing - research methods on getting datasets

SCRUM Meetings:
    Mon   - 3- 3:15
    Wed   - 1:40- 2:55
    Fri   - 1:40- 2:55
